Gray's Grist Mill is located in southern Massachusetts on the Rhode Island border. It is one of the oldest continually running grist mills in New England. There has been a mill operating on this site since 1675. The mill's main product is jonnycake meal. Gray's is one of the few mills in the country that still makes jonnycake meal the traditional way, using Rhode Island Flint Corn and grinding with granite stones. Gray's Grist Mill produces an exceptional corn meal that has a distinctive rich taste and no preservatives added.
